How to interpret retention tables:

- 82.3% of the Fall 2005 cohort were still enrolled after one year (fall 2006)
- 60.8% of the Fall 2005 cohort graduated within 8 years

Note: Persistence rates should be read in conjunction with graduation rates to determine the percentage of the original cohort who have either graduated or are still enrolled

Note: Retention rates do not include students who left to serve in the military, go on religious missions or are deceased

Note: For calculation of graduation rates, summer is a trailer term
